REPORT

ON THE

EXTERNAL TRADE OF BENGAL

WITH

NEPAL, SIKKIM, AND BHUTAN,

FOR THE YEAR 1881-82.

THE registration of traffic between Bengal and Nepal, Sikkim, and Bhutan was for the first time undertaken in Bengal from September 1875. The system then introduced was, however, modified under the orders of the Government of India, and a common system of traffic registration was adopted in Bengal and the North-Western Provinces with effect from the 1st of June 1879, in order to obtain as complete a record as possible of the traffic passing along all the important trade routes on the northern frontier of British India. The result of the registration of this trade during the year 1881-82 is presented.

2. The total value of the external trade of Bengal with Nepal, Sikkim, and Bhutan, registered at all the principal routes of traffic between Chumparun and Julpigoree during the past three years was, as follows :—

Imports into Bengal.				Exports from Bengal.			
	1879-80.	1880-81.	1881-82.		1879-80.	1880-81.	1881-82.
	Rs.	Rs.	Rs.		Rs.	Rs.	Rs.

„ Sikkim ...	2,51,491	1,67,960	1,67,533	„ Sikkim ...	48,085	80,898	86,011
„ Bhutan ...	3,85,406	2,43,922	1,25,448	„ Bhutan ...	2,89,588	1,96,947	1,05,168
Total ...	1,02,00,291	1,07,29,797	78,35,724	Total ...	59,30,008	58,93,288	57,27,847

3. The value of the registered trade with other provinces, which passed through Bengal in those years, was—

Year.	Imports into other provinces from Nepal.	Exports from other provinces to Nepal.
	Rs.	Rs.
1879-80 ...	27,533	3,61,209
1880-81 ...	28,731	3,99,170
1881-82 ...	4,38,040	5,63,732

4. The grand total of the registered traffic under imports therefore amounts in value to Rs. 82,73,764 against Rs. 1,07,58,528 in 1880-81, and Rs. 1,02,27,824 in 1879-80, and that under exports to Rs. 62,91,579 against Rs. 62,92,458 in 1880-81, and Rs. 62,94,217 in 1879-80. The greatest portion of the decrease, shown above, under imports as compared with the previous year is owing to a reduction in the prices of food-grains, as will be seen from the statement given below :—

Total Food-grains imported.

Total ...	18,31,519	16,52,323	16,91,598	53,58,540	49,87,615	34,83,014

5. It will be observed that there is an increase of 2·38 per cent. in the quantity of food-grains imported during 1881-82 as compared with 1880-81, but as regards the value, the figures indicate a decrease of Rs. 15,04,601, or 30·17 per cent. In the case of oil-seeds there has been a decrease of 1,82,157 maunds in quantity and of Rs. 7,87,760 in value, while in timber the decrease amounts to 1,82,994 maunds in quantity and to Rs. 10,85,629 in value. The large increase in the value of merchandise imported into other provinces from Nepal as compared with the two previous years, is attributable to the inclusion of treasure in the returns of the year under review, a separate head for which was inserted under the orders of the Government of India from the 1st of October 1881.

6. The value of the imports into Bengal exceeds that of the exports by Rs. 21,07,877 against Rs. 48,36,509 in 1880-81, and Rs. 42,70,283 in 1879-80.

7. As regards the duties or imposts to which traders on the frontier are liable after they leave or before they enter British territory, the Collector of Chumparun has furnished the following lists showing the rate of duty levied by the Nepal authorities on the different commodities imported from, and exported to, Nepal during 1881-82.

Duties levied on goods imported from Nepal into British territory

Description of articles	Rate of duty levied	REMARKS

The Collector adds—

"It has lately been ascertained from a Bettiah trader, who has considerable dealings with Nepal, that some changes have recently been made in the taxes leviable on imports and exports beyond the Nepal frontier, but the exact nature of these changes is not yet ascertained."

8. The report of the Collector of Mozufferpore contains the following remarks :—

"The same complaint as heretofore of the excess realization of custom duties and other illegal dues levied from British traders in some parts of Nepal frontier still continues to prevail. The rates at which these duties are levied along the frontier of the following outposts vary as per details given below :—

			Bairagnia.	Majorpunge
Per cart laden with goods	6 Lohia pice.	10 Lohia pice.
Pack-bullock	3 "	4 "
Cooly	1 "	1 "

"I am also informed that along the frontier of Bela outpost an annual rate of custom duties is levied at 8 as. per cart, 4 as. per pack-bullock, and 2 as per cooly, and along the frontier of Sonburra outpost, 2 pice per rupee are taken on sale or purchase of goods.

"The question of excess realization of customs duties by the ticcadars in the Nepal territory has formed the subject of a separate correspondence, and I propose to take up the matter during my next cold-weather tour towards the north of the district."

9. The sub-divisional officer of Madhubani in the Durbhunga district writes :—

"It appears there has not been any material change in the system of taxation from that reported last year. Duties which are known by the names of *khurchappi*, *lag*, and *sayer* are levied on all articles of trade, whether imported into or exported from the Nepal State. With a few exceptions in particular cases *khurchappi* is a duty levied on articles, chiefly grains, which are exported from Nepal at nine pice (Lohia pice equivalent to about one and a half annas) per cart and four pice per bullock. Some of the amount is collected by the zemindars at the place where the articles are purchased and some is taken by the State direct at the frontier. This tax can be paid once for all by regular traders at their option at contract rates for a fixed period, generally for one year, at eight annas per cart or bullock per annum.

"All animals except cows, which are exported from Nepal, are liable to duty as follows :—

Buffaloes	8 annas per head
Young buffaloes	1 "
Bullocks of all ages	2 "
Horses	2 "
Hogs	2 "
Goats	4 pice per head.

"The other two duties, *Lag* and *Sayer*, are taken on articles imported into Nepal, the former on carts and bullocks at the same rate as of *khurchappi*, and the latter on the amount of sale proceeds at two pice per rupee. An import duty on salt, piece goods, and articles of higher value is levied either on carts at eight annas each or on their estimated value at half-anna per rupee. Grain only, which Nepalese subjects themselves import, is allowed to pass in free.

"It has been found that there exists no uniformity on the mode of collection, nor are there uniform rates of tax strictly followed. The reason of this is that the levying of such taxes is generally let out in farm. In the engagement with the farmers no rate is fixed by the State, which gives them a loophole for exacting more than the actual due. It is said that these farmers take sometimes one rupee per cart.

"It appears that no dues not authorized by the Nepal Government are collected."

10. The information supplied by the Collector of Bhagulpore is to the same effect that was published in paragraph 7 of the Report on the external trade of Bengal for 1880-81. The sub-divisional officer of Kissengunge in the Purneah district states that there has been no change in the rates of duties levied by the Nepal authorities during 1881-82.

11. The Deputy Commissioner of Darjeeling gives the following list of duties levied by the Nepal Government on traders entering the country from British territory. No export duties are levied.—

		Duties levied
Cattle	...	1 to 8 annas.
Buffaloes	...	8 annas
Sheep and goats	...	2 "
Coarse cloth	...	6 pice per than.
Rice, dal, salt, bhutta, &c.	...	1 anna per load of about 1 maund.
Oil and ghee	...	8 annas per maund.

As regards Sikkim and Thibet, he writes :—

"No duty was levied by the Sikkim officials during the past year.

"At Phari in Thibet duties were levied on those traders entering Thibet, who were formerly Thibetan subjects, but left the country to settle elsewhere. The rate of duty was 1 to 5 per cent."

12. The Deputy Commissioner of Julpigoree writes:—

“Up to the last information I have received on the subject no duties or imposts are levied on traders after they leave or before they enter British territory from Bhutan.”

13. The quantity of untaxed foreign salt imported into British territory from trans-Himalayan sources amounted to 1,932 maunds 8 seers and 8 chittacks during the year, against 2,374 maunds 33 seers and 8 chittacks in 1880-81, and 2,362 maunds and 29 seers in 1879-80 as shown below—

Into			1879-80.			1880-81.			1881-82.		
			Mds.	s.	c.	Mds.	s.	c.	Mds.	s.	c.
Darjeeling	2,268	9	0	2,268	13	0	1,897	2	0
Julpigoree	94	20	0	106	20	8	34	31	0
Bhagulpore	0	0	0	0	0	0	0	15	8
Total	2,362	29	0	2,374	33	8	1,932	8	8

In the case of Darjeeling the decrease amounts to 371 maunds 11 seers compared with 1880-81, and to 371 maunds 7 seers compared with 1879-80, and the facilities for transport afforded by the opening of the Railway will doubtless result in a still further decrease in the importation of this salt. The returns of Julpigoree shew a decrease of 71 maunds 29 seers and 8 chittacks as compared with 1880-81, and of 59 maunds 29 seers as compared with 1879-80. This is attributable to the trade routes in Bhutan being nearly closed owing to a serious outbreak of small-pox which has not yet ceased. Only 15 seers and 8 chittacks of this salt was imported into Bhagulpore from the Nepal hills through Patchpandareah road. The returns of the previous years, however, shewed no such imports.

TRADE OF BENGAL WITH NEPAL.

14. The number of the recognized principal routes on which the work of the registration of the traffic crossing the frontier between Bengal and Nepal was carried on during 1881-82 was 27. The total value of the trade registered during the past three years, is shewn in the following statement:—

				Imports from	Exports to	Grand total
				Nepal.	Nepal.	of value.
				Rs.	Rs.	Rs.
1879-80	95,63,394	55,02,335	1,51,55,729
1880-81	1,03,17,915	56,15,143	1,59,33,358
1881-82	75,42,743	55,30,668	1,30,79,411

15. The money value of the imports shews a decrease of 26·90 per cent. compared with 1880-81, and of 21·13 per cent. compared with 1879-80, owing chiefly to a reduction in the prices of food-grains. Regarding exports the decrease amounts to 1·40 per cent. and ·99 per cent. respectively as compared with the two previous years. Of all staples the traffic in paddy shews the largest increase, namely 1,43,757 maunds as compared with 1880-81. The other important items shewing an increase are piece-goods, Indian (Rs. 61,007), iron (3,854 maunds), skins of sheep, &c. (34,809 pieces), salt (9,539 maunds), spices (7,575 maunds), and tobacco (5,393 maunds). The articles in which the decrease was most marked are pulses and gram (13,622 maunds) miscellaneous spring crops (30,587 maunds), rice (44,855 maunds), miscellaneous rain crops (13,239 maunds), hides of cattle (11,406 pieces), linseed (1,04,607 maunds), mustard seed (33,419 maunds), and timber (1,82,835 maunds). The usual statement showing all the chief articles of trade imported into and exported from Bengal from and to Nepal during the past three years is subjoined. The figures shewn here, however, represent the net trade between Bengal and Nepal after deducting such portion of it as passed into and from other provinces through Bengal.

16. *Cattle*.—The number of cattle registered during the year was 26,751 against 24,251 head in 1880-81. These figures, however, are to a great extent fallacious, inasmuch as it is not possible to register the cattle trade so completely as could be desired for reasons which have already been explained in previous reports.

17. *Cotton, raw*.—There has been very little change in the trade in raw cotton, the total quantity registered during the year being 7,494 maunds against 7,658 maunds in 1880-81. The district of Chumparun, with an exportation of 3,987 maunds, supplied the largest quantity to the Nepal market.

18. *Piece-goods*.—The total value of European piece-goods exported to Nepal was Rs. 18,34,818, or Rs. 3,39,472 below the figures of 1880-81; but, as compared with 1879-80, the traffic indicates an increase of Rs. 1,10,700. The different exporting marts in connection with this trade are shown in the following statement:—

26. *Saltpetre*.—The saltpetre trade shows a decrease of 1,090 maunds as compared with 1880-81, but there is an increase of 2,323 maunds as compared with 1879-80. The principal districts to which these supplies were sent are:—

27. *Oilseeds*.—There has been a marked decrease in the importation of linseed and mustard-seed during the year as shown below :—

Linseed declined probably in sympathy with the decreased demand for foreign exports. The principal importing marts in connection with this trade are specified :—

28. *Tobacco*.—The quantity of tobacco exported to Nepal was 20,408 maunds against 16,578 maunds in 1880-81 and 19,276 maunds in 1879-80. The imports from Nepal also show an advance of 1,563 maunds as compared with 1880-81, and of 1,591 maunds as compared with 1879-80.

29. *Timber*.—The import timber trade shews a falling off of 1,82,835 maunds as compared with 1880-81, but an increase of 47,909 maunds as compared with 1879-80. The different routes through which these supplies were carried are :—

TRADE BETWEEN BENGAL AND SIKKIM.

30. There are at present two stations, namely Pheydong and Runject, for the registration of the trade of Darjeeling with Sikkim and Thibet. The total value of such trade registered during the past three years is as follows :—

Year.	Imports from Sikkim.		Exports to Sikkim.		Total.
	Rs.		Rs.		Rs.
1879-80	...	2,51,491	...	48,085	2,99,576
1880-81	...	1,67,960	...	80,898	2,48,858
1881-82	...	1,67,533	...	86,011	2,53,544

31. There is very little change in the gross figures of the past year as compared with those of 1880-81. In the import trade an increase, as compared with 1880-81, is observable in horses, sheep and goats, miscellaneous rain crops, brass and copper, and ghee. The following statement shews the

value of the most important items of imports, registered during the past three years :—

Chief articles of trade.	Imports from Sikkim.		
	1879-80. Rs.	1880-81. Rs.	1881-82. Rs.
Horses	15,975	28,250	48,225
Cattle	10,450	12,475	6,950
Sheep and goats	6,365	9,964	15,678
Lime and limestone	1,213	4,938	9,380
Vegetables and other kinds of fruits	3,506	6,590	6,486
Miscellaneous rain crops	44,920	20,664	23,047
Brass and copper	16,920	11,040	17,700
Ghee	3,392	2,304	3,552
Provisions other than ghee	4,480	26,830	1,220
Salt	9,090	6,775	7,778
Tea, foreign	3,520
Wool manufactured (piece-goods)	1,860	16,536	17,294
All other articles of merchandise, manufactured	1,21,953	5,176	3,283

32. As already explained, vegetables were formerly shown under "all other kinds of provisions," but this classification was changed by the Government of India, and since July 1881 they have been shown under "other kinds of fruits and nuts." The salt shewn above is the untaxed foreign salt, of which an account has already been given in this report. The trade in manufactured woollen goods shews a slight increase. As regards tea the Deputy Commissioner of Darjeeling states that it is probably the brick tea of Thibet that was imported from Sikkim. The large decrease under "all other articles of merchandise" during the past two years as compared with 1879-80, is due to a diminished supply of planks, of which only 6,321 pieces were imported during the year, against 4,342 pieces in 1880-81, and 56,616 pieces in 1879-80.

33. As regards the exports an increase is observable under European piece-goods, rice and paints and colours. The values of all the chief articles, comprising the export trade, are exhibited in the following statement:—

Chief articles of trade.	Exports to Sikkim.		
	1879-80. Rs.	1880-81. Rs.	1881-82. Rs.
Cattle	6,175	11,575	6,650
Piece-goods (European)	17,304	23,744	29,121
Ditto (Indian)	75	2,592	382
Indigo	5,775	11,760	11,330
Rice	2,910	3,432	7,313
Brass and copper	1,000	7,680	5,360
Paints and colours	1,400	10,920
Salt	1,044	1,194	760
Tobacco	5,805	8,016	4,609

34. The Lieutenant-Governor is not satisfied with the accuracy of these figures; and, indeed, the delay in submitting this report has been caused by the necessity of repeated references for explanation of errors. The requisite orders will be passed, and it is hoped that some improvement may be effected in the registration of the traffic. Nevertheless, the figures, such as they are, suffice to shew that there has not been that increase in trade that might have been anticipated from the opening of the Darjeeling Railway, and the completion of a good road to the Jeylep Pass. Probably no large expansion of commerce with the small State of Sikkim can be expected; but the facilities that have now been offered would undoubtedly have the effect of largely developing the trade with Thibet if special causes were not operating in the contrary direction. It is stated that the heavy snow on the passes and the fear of small-pox, which was prevalent in the neighbourhood of Pheydong and Kalimpong, had the effect of deterring traders from crossing the frontier. Other causes, however, have also been suggested to the Lieutenant-Governor, and enquiries are being made in the matter. Apart, however, from the absence of physical difficulties or the removal of intentional obstructions, it is probable that much can be done to foster the trans-frontier traffic by seeking to supply the special wants of the Thibetans with Indian produce. It will be observed that foreign tea, to the value of Rs. 3,520, was registered as imported through Pheydong on the road to Thibet in 1881-82. The absence of any record of this article in the Pheydong returns of the two previous years must be due to faulty registration, as it is notorious that brick-tea of Thibet is always available for purchase in the Darjeeling Bazar. This tea is carried all the way from Ta-taen-lu on the Chinese frontier, and is sold in Darjeeling at many times its original price. It is hoped that the tea-planters of

Darjeeling and the Dooars will make some effort to secure this trade by preparing coarse tea for the Thibetan market. Only the refuse of the tea crop is required for the purpose, and there would be no diminution in the quantity available for export to other markets. Darjeeling brick-tea should undersell Chinese brick-tea at Lhasa and the neighbouring markets, which are only three weeks' journey from Darjeeling, while they are three months' journey from Ta-tsien-lu. The attention of the tea-planters has already been drawn to this matter, and measures are being taken to disseminate information on the subject through a pamphlet written by a gentleman of special experience in the matter.

TRADE BETWEEN BENGAL AND BHUTAN.

35. The different stations for the registration of traffic between Julpigoree and Bhutan are Ambari, Buxa, and Hantoopara. The total value of the trade registered during the past three years was as follows :—

Year.	Imports from Bhutan.	Exports to Bhutan.	Total
	Rs.	Rs.	Rs.
1879-80	3,85,406	2,89,588	6,74,994
1880-81	2,43,922	1,96,947	4,40,869
1881-82	1,25,448	1,05,168	2,30,616

36. It will be seen that the total value of merchandise registered during 1881-82 contrasts very unfavourably with the figures of the two preceding years. The decrease is observable under almost all the articles of traffic, imports as well as exports. It is said, however, that the trade routes in Bhutan were nearly closed owing to a serious outbreak of small-pox, which has not yet ceased. The principal articles imported from Bhutan during the past three years, were :—

Chief articles of trade.	Imports from Bhutan.		
	1879-80. Rs.	1880-81. Rs.	1881-82. Rs.
Horses	1,49,250	22,275	38,400
Piece-goods (Indian)	3,916	5,741	1,346
Madder or manjeet	25,176	46,344	14,652
Vegetables and other kinds of fruits and nuts except coconuts and betelnuts	1,176	1,322	1,155
Shell-lac	17,750	2,535
Ghee	17,024	11,124	10,528
Woollen manufacture (piece-goods)	1,08,442	40,477	17,364
All other articles of merchandise (unmanufactured)	55,445	21,614	12,102
All other articles of merchandise (manufactured)	2,530	20,059	22,399

37. The only articles which shewed some advance over the trade of the previous year were horses and miscellaneous manufactured goods. An enquiry was made through the Deputy Commissioner of Julpigoree under the orders of the Government of India regarding the shell-lac trade registered in 1880-81, but no information of value could be obtained upon the subject. The quantity imported during the past year, however, was very much less, namely 51 maunds valued at Rs. 2,535.

38. The following are the most important items of export registered during the past three years :—

Chief articles of trade.	Exports to Bhutan.		
	1879-80. Rs.	1880-81. Rs.	1881-82. Rs.
Piece-goods (European)	51,962	27,871	18,817
Ditto (Indian)	5,351	546	1,117
Rice	47,557	20,526	6,770
Paddy	12,418	16,287	2,405
Iron	296	728	3,894
Salt	293	1,598	1,496
Betelnuts	54,608	75,984	38,946
Sugar, unrefined	2,588	1,712	2,738
Tobacco	97,013	37,259	17,948
Woollen manufacture (piece-goods)	8,600	320	4,657

39. The trade in iron, unrefined sugar, and woollen piece-goods shews some improvement as compared with 1880-81; but under all other heads the decrease is most marked with the exception, however, of salt, under which the figures of the last year are only eight maunds below those of the preceding year.
